### Objectifs :

The graduate student in the educational stream for English secondary high school level, will be able to pursue a professional qualifying training in the teaching field either in the public or private sector; or to enrol in higher studies/ education. They will be able to achieve this by mobilising the set of knowledge, skills and competencies, they have acquired and developed -in the fields of language, communication, literature, teaching methodology and technology- throughout the different modules they have studied at the university.

The educational stream will enable students to:

- 1-consolidate and develop their knowledge and skills about the English language and the Anglo-Saxon culture;
- 2-identify the different aspects and principles of linguistics and translation;
- 3-acquire the basic knowledge in the educational and methodological fields;
- 4-use the educational ICT tools appropriately.
- 5-develop their communicative and animating skills.
- 6-recognise the principles and the ethics of the teaching profession.
- 7-identify the various factors that intervene in the teaching/learning environment.
- 8-interpret/explain a variety of educational activities, strategies and situations
- 9-apply their knowledge in the field of teaching methodology in different learning contexts
- 10-develop self-training skills.
